She Lion

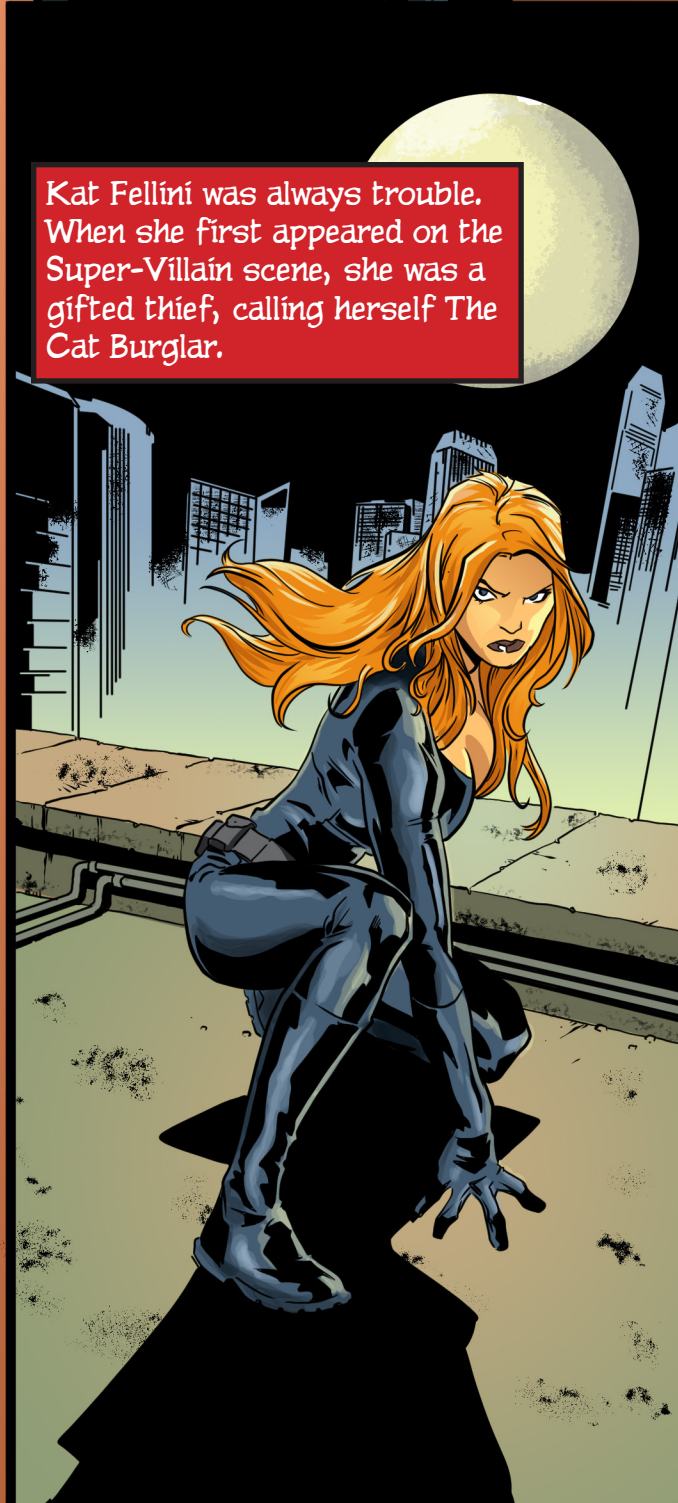

Much like her namesake, She-Lion was a wild and dangerous Super-Villain.

Her speed, agility and fighting skill made her a viable threat in any situation, to say nothing of her razor-sharp talons.

But, as with Brawler, here is another A-list villain seemingly going straight, as Fellini now works the bar at Mahoney's.

Has the She-Lion lost her claws?

I doubt it.

Kat Fellini was always trouble. When she first appeared on the Super-Villain scene, she was a gifted thief, calling herself The Cat Burglar.

Although fairly innocuous to begin with, she soon graduated from stealing cars to stealing bigger prey.

Fellini took it upon herself to break into a museum and steal the infamous Heart of Africa diamond.

Long since rumoured to hold the 'Essence of the Jungle' – whatever the hell that means – the diamond was said to bestow power upon the rightful bearer

I've seen the security camera footage from the Museum.

Fellini broke in and as soon as she touched the diamond, it began to glow and she fell to the ground.

When she came to a moment later, she jumped 30 feet straight up in the air and out the Museum window.

I don't have any idea why the diamond chose her, of all people, to bestow great power upon. That's a mystery for another day.

All I know is, staying true to her character and rather than using her new-found abilities to help people, Fellini embarked on an upgraded life of crime and adopted the moniker...

She Lion

A founder member of the feline-themed group 'The Pack', She-Lion quickly gained a reputation as a fierce and savage villain.

I've personally never fought her in battle but from what I hear, she's fast, she's wild...

...and she's deadly.

Which begs the question, then - why did such a prolific Super-Villain suddenly turn her back on a life of crime, hang up her costume and become a simple barmaid?

The incident on the moon goes some way to explaining Mahoney's change of heart but this wildcat? Her motives are unclear.

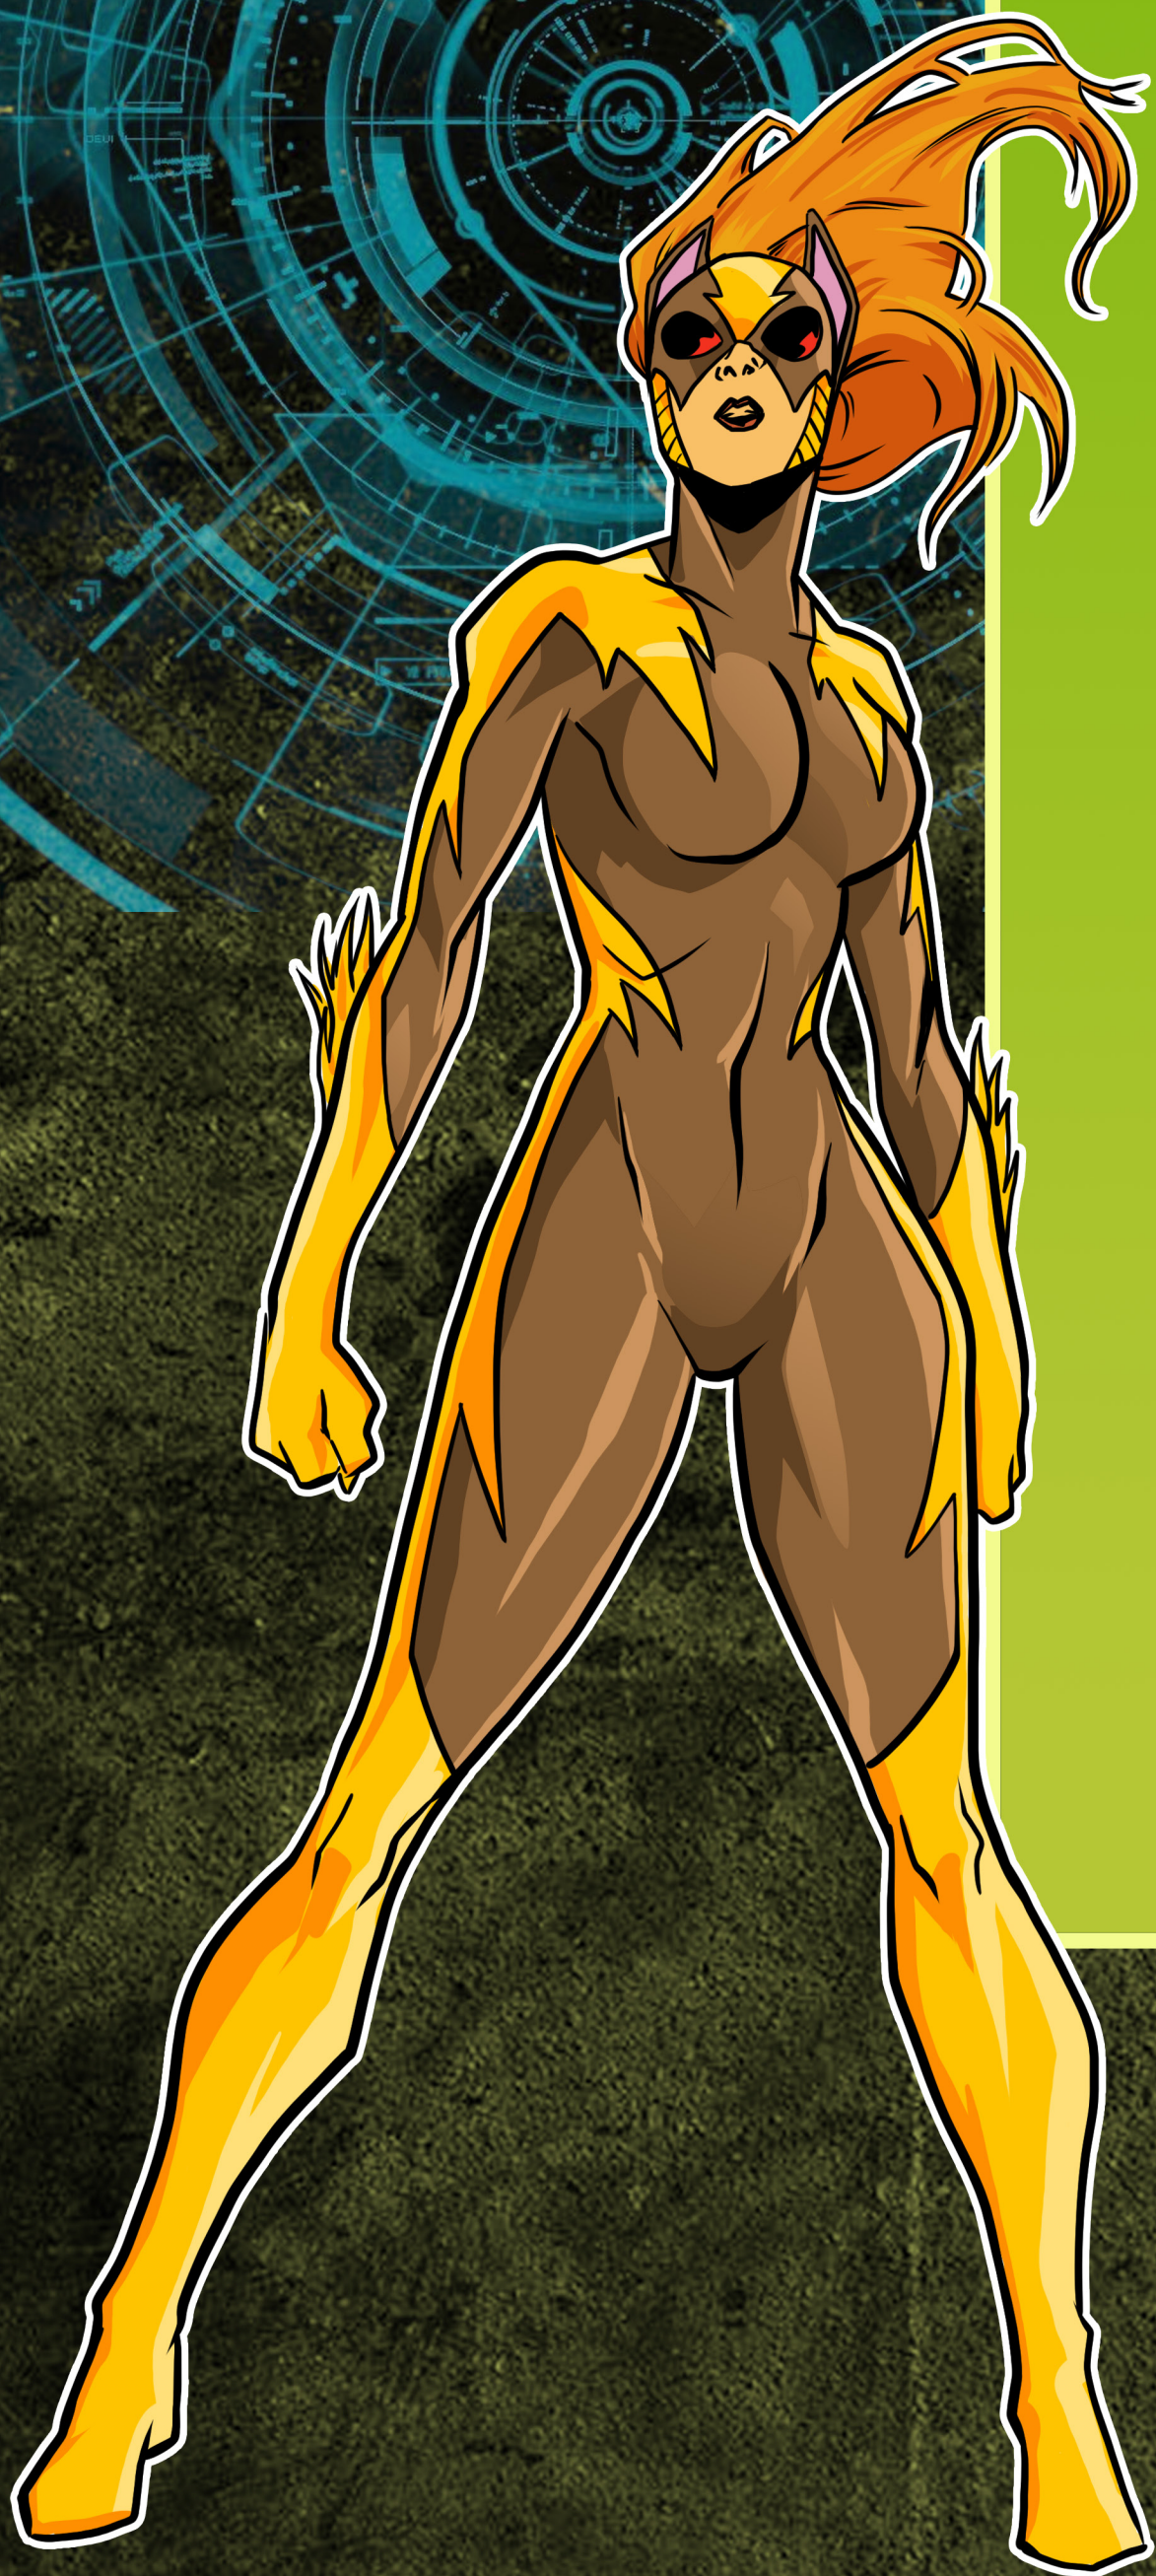

Yet another mystery to solve. But in keeping with the feline theme, can this Leopard truly change her spots? Time will tell.

But the second I suspect she's returned to her criminal ways...

...I'll be the first to trim her claws.

She-Lion

REAL NAME: KATHERINE

'KAT' FELLINI

STRENGTH: 5

SPEED: 8

INTELLIGENCE: 5

FIGHTING SKILL: 8

THREAT LEVEL: 7

POWERS

She-Lion's powers seem to mimic those of her namesake. She is incredibly fast, agile and savage and her claws have been known to cut through metal. They're certainly sharp enough to dig into concrete which allows her to scale walls and buildings and, in the past, she's been known to enter into a wild frenzy during battle. She-Lion is a foe to be respected so I hope she stays retired from her criminal ways.
